

Highly Precise Synchronization in Transmission and Distribution Networks

MEINBERG

Time and Frequency Synchronization

with GPS, GLONASS, DCF77 and IRIG

Network Time

IEEE 1588 - PTP / IEEE C37.238-2011 / NTP

Applications

Power Line Frequency Monitoring, SCADA,
Time Source for IEDs, Bay Controller, Protection Relays

Signal Generation

IRIG Time Codes, DCF77, PPS,
Electrical and Optical Interfaces

Precise Timing for Power Industries and the Smart Grid

Flexible, rugged and precise Synchronization Solutions in Accordance with the IEC 61850 Standard for Power Plants, Substations and End-Users.
