

Invitation to Participate in UCAlug Interoperability Demonstration

CIGRE 2016 Session 46 – 21-26 August, 2016 – Paris, France

UCAlug invites you to participate in the UCAlug CIGRE 2016 Interoperability Demonstration. Participation in this demonstration is a benefit of membership and is available only to corporate members of UCAlug. Participants will have a unique opportunity to demonstrate their commitment to interoperability using IEC standards like IEC 61850, IEC 61970/61968 (CIM) and other standards endorsed by UCAlug.

The UCAlug invites you to join us by becoming a paid participant in our demonstration. There are several participation levels available to suit every member’s goals and budget. This is an excellent way to get your products and services in front of the CIGRE Session audience via a live networked demonstration at a fraction of the cost of a complete CIGRE exhibit. The CIGRE audience consists of more than 4400 of the best and brightest power system engineers from all over the world that are developing the future of high-voltage electric transport networks.

Please [visit our web site](#) to book your participation today.

Any questions? Please contact Kay Clinard, President UCAlug at: kay@ucaaug.org or +1-919-847-2241
